

TTI Success Insights™ Collection

Interviewing Insights™ – General & Sales Versions

TARGETING TALENT

Finding the right talent for specific jobs is not just desirable, but ESSENTIAL to business success. Tools that add value to the hiring process are increasingly popular with human resource professionals, line managers and business owners. Much valuable employee time can be wasted in needlessly interviewing prospective employees whose talents are not suited to job openings.

CURBING TURNOVER COSTS

The costs of employee turnover can no longer be ignored and are widely advertised as being from 3 to 9 times annual salary — depending on the job level and experience of departing employees. Replacing talent quickly and accurately will effectively stop the drain on a company's resources that is related to employee turnover.

TOOLS FOR EVERY BUSINESS

Interviewing Insights *General* and *Sales* reports are designed to assist companies to quickly and successfully prepare for the interview process. These helpful reports will target talent early in the hiring process and pave the way for second-level interviews and/or more in-depth assessments of specific capabilities (see TTI's job-specific assessments in *Sales*, *Customer Service*, *Executive*, etc.).

USE INTERVIEWING INSIGHTS FOR GENERAL JOBS

Use this assessment to prepare for a wide variety of initial interviews for jobs, including (but not limited to) the following:

- Administration
